

RooSy LED design element

- Illuminated wall element from single-pane safety glass with illuminated LED all over.
- 6mm ESG-glass according to standard DIN EN 12150 with circulating cut glass edges
- Fixed on the substructure with circulating support plates
- All over image print on the backside of the glass element for the optimized cleaning
- 2-sides illuminated LED's
 - approx. 14,4W/m 24V-DC,
 - approx. 4000 bis 4500K power: approximately 100W
- Maximum width 1200mm

- Included power adapter 24V-DC / 120W
- Included control module PWM –Modul
- Input voltage 12-24V DC
- Output voltage 12-24V DC
- Output current max. 10A
- Control voltage 1-10V
- Dimmer 1-24V 230V-AC / 50-60Hz optional
